

Vorrede.

Eine sehr klare und in sich stimmige Rede von Dr. William Luther Pierce.

--- Ich habe sie von youtube aufgenommen. Dabei habe ich die englischen Untertitel eingeschaltet. Diese werden wohl vom Rechner erzeugt, sie sind nicht ganz genau, aber sie sind eine sehr gute Hilfe zum Verstehen des Textes.

--- Ich habe die Rede oftmals angehört und ich versuche, den Text in englischer und in deutscher Sprache wiederzugeben.

--- Diese Rede von Dr. Luther Pierce ist ein geschichtliches Zeugnis von hohem Wert. Sie verdient es, daß sie aufbewahrt wird und weiterverbreitet wird. Sie stammt aus dem Jahr 1997.

1 Dr. William Luther Pierce: The New World Order. 1997

Hello, we have discussed many topics on this "American dissident voices programmes" ---
we have talked about social issues, moral issues, political issues ---
we have talked about race and nationalism ---
and about the jewish control of the news and entertainment media ---
and about many other things.

Today I'll talk about the big picture ---

I'll talk in broad outline about the salient developments of the past few years ---
and the way in which they effect us.

2 There has been much talk in various quarters recently about the New World Order. ---

About seven or eight years ago the new world order was a poorly kept secret.

It was discussed in private by the people who considered themselves ---
qualified to decide for all the rest of us ---
what sort of world we wanted to live in.

But they didn't offer to let us in on their discussions. ---

They were concerned that in our backwardness and ignorance ---

we might not want to go along for the ride, ---

if we learned what these elitists ---

had planned for us.

Das sind die Minuten 00:00 bis 01:28.

3 There are days now however ---with Bill Clinton in the White House
and the general public dancing mindlessly to whatever tune is played by the mass media ---
they are much less concerned that the
(schwer verständlich, klingt wie:"hoipowoj")
will be able to upset their apple card
(apple card kommt noch öfter vor, im Sinn von "Plan, Vorhaben")
and so the New World Order is discussed within earshot of us commoners as a matter of
course.

Despite the general familiarity with the term however ---
there is very little real understanding ---
on the part of most people ---
of the concept of a new world order.

And there is even less understanding of ---
the real motivations behind this concept ---
and of their historical development.

Outsiders remedy this lack of understanding ---
at least in some small part ---
during the next few minutes.

Das ist Minute 2:25. Bis hierher ist es die Einleitung der Rede.

4 Ab 2:25 min.
Let's look at the history of the new world order concept first. ---
The idea of a world government certainly isn't new. ---
The Roman Empire achieved a world government to a large extent ---
two thousand years ago.

And during the Middle ages the ---
Christian Church constituted a universal order of "sorts" --- despite the schism between it's
western or Roman branch --- and it's eastern or Greek branch.

In modern times the idea has appealed to several groups of people. ---
In the first place there are the amoral superwealthy elements ---
cosmopolitan and raceless individuals who already wield a great deal of power ---
through their wealth. ---

And they like to fire themselves with the thought
that they deserve even more power --- over the lives of the rest of us.

Actually in many cases ---
there is more than self "finery" involved.
Many of these men are involved in giant ---
multinational business enterprises ---
and they see more profit for themselves in the conversion of the world ---
into a sort of global plantation ---
with themselves in the role of owners and overseers ---
and the rest of us is their serfs.

These cosmopolitan big business elements, ---
are the elements that most of the unsophisticated opponents think about --- often these
insophisticated opponents simply rail against the international bankers, attributing to them the
dominant role in New World Order scheming.

At least as important as these super wealthy big business elements and vastly more numerous
--- are those who support the New World Order for reasons of (4:25) ideology and fashion.

The idea of a world government has had a trendy sort of appeal leftist academics and clerics
as well as amongst a number of shallow intellectuals influenced by the former and christians
influenced by the later.

Bill and Hillary Clinton as well as many of their friends and associates are among the former.
The new world order has been fashionable among the crowd they have run with since high
school and these people are nothing if not fashionconscious.
They are people who would rather be torn apart by wild horses than be caught by an
unfashionable idea of variance???

Das ist Minute 5:15.

5 Ab 5:15 min.

Many of the christian supporters of the New World Order
are tormented by feelings of white racial guilt
or a displaced compassion for the non white hordes of the world.

They see the New World Order as a way to equilize the world racially
by redistributing the world's wealth
and to punish the whites
by bringing them down to the level of the non whites.

Also among the ideological boosters of the New World Order ---
are those who claim to see greater security ---
for everyone under a world government
or who are simply attracted by the concept of a more orderly world
under centralized control.

Since the early part of the century groups such as
the Council on Foreign Relations
have been working behind the scenes
of the political and the academic fronts
to promote the idea of a New World Order.

These people argue that with
weapons of mass destruction such as nuclear bombs on the loose
the only way for humanity to be safe is under the world government.

Only through the establishment of a New World Order they assert
can we hope to eliminate war and it's associated evils.

Yet this same intellectuals worked harder than anyone else
to unleash the Second World War,
the most destructive and murderous war ever inflicted on the world

and the development and use of nuclear weapons in that war ---
their conspiring and their behind-the-scenes-maneuvering ---
succeeded in turning a regional conflict in Eastern Europe ---
primarily between Germany and the Soviet Union ---
into a global campaign to destroy Germany ---
and save the Soviet Union.

Their great disappointment was
that the war in Europe ended too soon
for them to use nuclear weapons against Germany.

Despite their protest abhorrence of war
they are all too ready to resort to it
in order to prevent what they consider
the wrong sort of New World Order or even the
wrong sort of New European Order.

And this brings us to a third element
and the most important element
among the proponents of the New World Order
This is the Jewish element.

Anyone who reads the Old Testament
with eyes not blinded by Christian piety
cannot miss its central message:

Das ist Minute 7:58

6 Ab 7.58 min.

That Jews are a special people,
who are morally superior to the other peoples of the earth

a chosen people,
chosen by their tribal deity to inherit the earth and all its riches
and to be served by non-Jews.

Isaiah for example spells out this message clearly and expressly.

Orthodox religious Jews believe it literally.

Even atheistic Jews believe it in a sense:
They believe that they are smarter more resourceful and better organized
than non-Jews and so deserve to exploit them and rule over them.

And at least as far as being better organized they certainly are correct.

They have ten times as many organizations per capita
to represent their interests as any other race or ethnic group.

Some of these are strictly internal educational or cultural organizations

aimed at maintaining Jewish cohesiveness and the Jewish sense of identity.

Others are aimed at exerting pressure or influence on the gentile majority around them.

Some of the latter organizations such as the "anti-defamation league" or the "bnai brit" are quite powerful and have gentile politicians dancing to their tune.

And in a collective sense the Jews may be justified in thinking that they are smarter which is to say that they have developed a collective strategy for survival and self advancement which so far has been extraordinarily successful.

Central to this strategy is the maintenance of a sense of grievance against the non-jewish world a sense that Jews not only must stick together but that they are justified in using deceit and any other tactic in their dealings with the gentiles because the gentiles are out to destroy them.

Certainly no other race celebrates its alleged prosecutions the way the Jews do theirs and their annual Purim festival for example they still merge a twentyeight centuries old grievance against the ancient Persians.

More than anything else however it is that Jew's control the news and entertainment media which gives them their immense power.

And for more than 50 years they have consistently used their media power to advance the schemes of the New World Order gain.

Clearly the Jews see a dominant role for themselves in a world government because of the power they already wield.

Beyond this,
---with their highly leveraged situation,
---that is their need to maintain their control over numerically much larger gentile populations everywhere
---increasing centralization of governmental power is the only strategy which makes sense for them..

They have a tiger by the tail and they dare not let go.

Das ist Minute 11:06

7 Ab 11:06 min.

Their great fear is that a strong and genuinely patriotic leader may arise in some nation, another (leergelassen wegen des Paragraphen 130) and he will succeed in breaking the Jewish control over his people and ending Jewish power in his nation.

If that is permitted to happen in any major nation it may spread quickly to other nations.

That's why they called out all the stars to destroy Germany during the Second World War.
and, if they were not already convinced, the Second World War redoubled their
conviction that they must make every nation subordinate
to a world government under their control.

What the Jews and the other New World Order skemers have in mind
goes far far beyond the
United Nations organization
that they created at the end of the Second World War.

The UN has been moderately successful at
bullying small countries into line
with the threat of the so-called peacekeeping
forces which they employed.
but it has no power at all over large nations.

The Jews want a final end
to the possibility of the resurgence
of any nationalism, except their own of course.

They want to eliminate forever the possibility
that the people of Russia or the United States
or Germany or Britain
or any other country except Israel
will act from their own will.

That *terminal*??? elimination of
national sovereignty
is in accord with the interest of the non Jewish
New World Order skemers as well.

The whole idea of patriotism
has been in bad order
with the collective academics
and their semi intellectual hangers on
for a long time.

Patriotism is an alien concept to them
They are instinctively hostile to patriots
Bill Clinton who demonstrated against
his own country during the Vietnam war
provides an excellent example
of this mind-set.

And patriotism also is contrary
to the universalist ideas
of the Christian clerics
backing the New World Order.

Finally the international capitalists also
are hostile to national sovereignty
They want a truly global plantation
with a global labour pool for them to exploit
and a global market ...

national boundaries and any tendencies toward
protecting national interest
just get in their way
and cut into their profits

So thereoff we can begin to understand some of
the things which have been happening to us during the last few decades
in terms of these goals of the
New World Order skemers.

For example, the refusal of the United States government to
control our borders.

We have millions of illegal aliens in the United States
and hundreds of thousands more entering
the country every year.

Stopping the flow of illegal aliens across our borders
and deporting the evil illegals already here,
would be a trivially easy thing to do for the United States government.

It would cost far less money than they spent each year
in providing various social and medical services
to these illegal aliens now.

Any military or police operations involved
could be integrated with training programs
...to provide valuable experience to military and police personal.

But the federal government has consistently
refused to take any effective action
to hold illegal immigration.

They have simply play-acted in this regard.

spending a tiny amount of money to
...up a security fence along
the Mexican border in oe area
and leaving the border unguarded in another area.

In response to public outrage
by citizens and border areas
who demand action by the government
a few dozen more border patrol agents will be hired

or some other action will be taken
to make it seem
that the government wants to
control the borders.

But every action taken is deliberately ineffective and I mean deliberately.

The truth of the matter is
that the New World Order people ultimately aim to create
a new world population of serfs
for their global plantation.

a homogenous population of
....??? serfs.

a population of docile and predictable and interchangeable serfs.

And they definitely don't want any
large reservoir of white
people anywhere who might rebel.

So from the point of view of the New World Order planners
the more Mexicans and Haitians and Vietnamese
pour into the United States
the better.

But they are not ready yet to announce publicly
that their aim is to destroy the
racial character of the US population.

So when the citizens squawk to loudly about illegal aliens
the government puts on a pretence
of doing something about the problem.

what they want to do is keep the illegals coming in
while they continue to enforce their racial mixing
and their anti discrimination laws.

zu verstärken.

Das ist Minute 17:27

9 Ab 17:27 min.

Their aim is to homogenize the population and destroy it's white character gradually without
provoking out an uprising.

Or consider Bill Clinton's current campaign to have more legislation in action against

This will score him a few votes from black, homosexual and feminist voters for the
democrats, but the democrats were getting all of those votes anyway.

As I have explained in other broadcasts, Mr. Clintons campaign to outlaw hate makes very
little sense if it is taken at face value.

It is understandable only in the context of a much larger campaign to scrap the bill of rights.

In fact what we see when we look closely at the principal backers of the New World Order
and at the people who have been loudest
--- in their demand for curbs of first amendment rights
--- in their demands for the elimination --- and in their calls for governmental behaviour
contrary
to the fourth, fifth and sixth amendments as well,
all in the name of increasing public security

what we see
is that these are the same people
--- the people who want to outlaw what they
call "hate-speech"
--- the people who want to confiscate all private firearms
--- the people who believe that "political correctness"
should take precedence over
--- ---the right to "due process" (rechtlicher Fachausdruck aus der US-Verfassung)
and a
--- --- "speedy trial" (rechtlicher Fachausdruck aus der US-Verfassung, 6th Amendment),
--- ---the freedom from "double jeopardy" (ebenfalls ein rechtlicher Fachausdruck aus der US-
Verfassung).
--- ---and for being compelled to "testify against oneself" (ebenfalls ein rechtlicher
Fachausdruck aus dem 5th Amendment)
--- --- and for unlawful search and seizure (ein Fachausdruck das dem 4th Amendment)
(sinngemäß: diese Leute wollen in die US-Verfassung eingreifen)

All these people are fervent promoters
of the New World order.

and all of the people who have been scheming
for the New World Order
understand that
the one thing which could upset their apple card
is a rebellion by white patriots.

and they are determined to have the government
tighten it's grip
grip on the people in order to prevent
a rebellion from taking place.

Now, I apologize for not having
enough time to present more details today

for not carefully documenting everything I have said today
with plenty of evidence.

But you know I have done that on other "American

dissident voices broadcasts".

On one broadcast for another I have documented
everything that I have said today

I wanted to put it all together for you today
to give you the
big picture in broad outline.

Well, I tell you what it means for our future:

It means first and foremost
that the governments assault on our freedom will not abate

instead it will become more intense
more vicious
more reckless

the government's lawlessness that we saw at
Ruby Ridge and at Waco
will intensify

the government is irrevocably committed
to repressing decent,
to stifling opposition,
to intimidate its critics
and to locking-up or killing everyone
who cannot be intimidated

Das ist Minute 21:07

10 Ab 21:07 min.

The New World Order schemers are absolutely determined to have their way.

They have been able to go a long way towards their goal by using subterfuge and deceit
but ultimately the transformation of a world of independent nations into the global plantation
that they are aiming at
will involve changes so profound and so traumatic that subterfuge and deceit will not be
enough to keep the serfs under control.

They will need brawl police power applied KGB-style.
They have to develop that power and they begin to using it now.
They must silence their critics.

They are a pretty bold and arrogant bunch of schemers but they understand that
according to the old way of looking at things, according to our way. they are traitors.

They understand, that
--- when the general public ever gets a real ink-ling (Ahnung) of what they are up to,
--- if they ever lose their grip on the situation
they are all end up hanging from lamp posts.

What they are planning is so "marchless/matchless???", so evil, that the thought of being brought to account for it frightens them.
And in their fear they will resort to every means at their disposal to protect themselves and their scheme.

And, my friends, we will resort to any means at our disposal to assure that their scheme does not succeed
and they do indeed end up hanging from lamp posts.

I am counting on your help.

Das ist Minute 22:45, das ist das Ende dieses Vortrags von Dr. William Luther Pierce.
